

# Securely connecting parents with educators

Kinderloop provides a secure, fun and cost effective way for child care providers to share information with family through real-time updates.

## The benefits

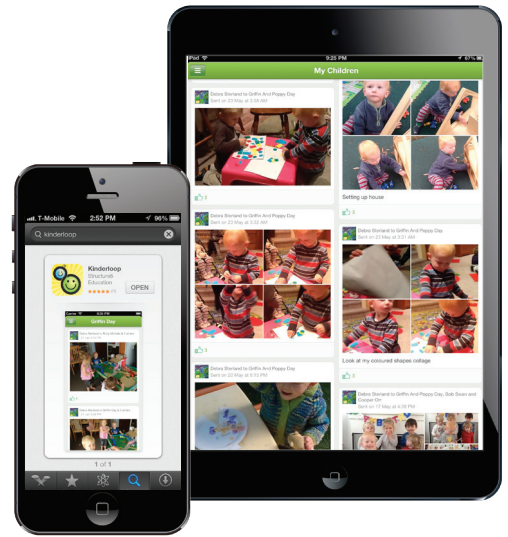

- **Secure and private.** The data will be accessible only by the families members invited
- Care providers use **smart devices to capture news**, events, photos, and reminders as they happen without being tied to a clipboard or computer
- Parents receive photos, news, and reminders from their school **on their phones** or computers in real time!
- No repetitious input. Easy reporting on **developmental milestones**, learning journeys, and school-wide updates
- Helps develop and maintain a **positive and constructive relationship** with parents - they love it!
- Family members can **continue the learning** with their children at home
- **Securely invite additional family members** worldwide to view their child's Kinderloop
