

Cutting or tearing...

Experience

Preparation: Gather some old magazines, newspapers or junk mail together along with some glue. Invite your child to cut or tear out some pictures. Encourage them to make a collage on the paper with the images they have cut or torn.

Tip: If you do not have glue, you could use flour and water. Add a couple of tablespoons of plain flour into a cup with a small amount of water, and stir until you get a paste.

Learning benefits

- Develops fine motor and eye hand coordination
- Opportunity to communicate, discuss images
- Promotes creativity, imagination and lateral thinking
- Increases understanding of pattern making and dimension

5 mins

3 - 5 years
